# ABOUT US

Golden Nexus General Trading LLC is a dynamic and diversified company dedicated to providing high-quality products and services in a wide range of industries. With a commitment to excellence and a passion for innovation, we have established ourselves as a trusted source for a comprehensive selection of products and solutions.

## **Our Commitment:**

At Golden Nexus General Trading LLC, we are dedicated to meeting the needs of our customers by offering top-notch products that adhere to the highest industry standards. We prioritize quality, reliability, and innovation in all that we do. Our experienced team is always ready to assist you in selecting the right products and solutions for your specific requirements.

# OUR PRODUCTS

## INDUSTRIAL AND OILFIELD SUPPLY

### PERSONAL PROTECTIVE EQUIPMENT [PPE]:

Common PPE items include: Hard Hats, Safety Glasses/Goggles, Ear Protection, Respirators, Gloves, Safety Shoes and Safety Boots. These safety materials and accessories play a crucial role in protecting individuals and promoting a safe work environment. The specific items needed depend on the industry, workplace hazards, and local regulations. It's essential for employers and employees to be familiar with the appropriate safety measures and equipment required for their particular work environment.

### WELDING MACHINE AND ACCESSORIES:

We provide welding machines like arc welding machines, gas welding machines, tungsten inert gas (TIG) welding machines, and plasma arc welding machines. Accessories like welding helmets, welding gloves, welding jackets or aprons, welding shields or screens, electrodes or filler rods, welding clamps, and magnets.

These welding machines and accessories are crucial for ensuring the safety, quality, and efficiency of welding operations in various industries. The choice of equipment and accessories depends on the specific welding process, materials, and application requirements.

### HAND TOOLS AND POWER TOOLS:

Hand tools and power tools are essential instruments used in various industries and for a wide range of tasks, from construction and woodworking to automotive repair and DIY projects. These tools make it easier to perform tasks efficiently and accurately.

Hand tools like Screwdrivers, Wrenches, Spanners, Pliers, Hammers, Saws, Chisels, Measuring and Marking Tools.

Power Tools like Drills, Circular Saws, Jigsaws, Angle Grinders, Sanders, Power Screwdrivers, Router, Impact Wrenches, Power Planers, Rotary Tools, Heat Guns and Nail Guns.

### PIPE AND FITTINGS:

Pipes and fittings are fundamental components in plumbing, industrial processes, and various fluid transportation systems. They are used to convey liquids, gases, and sometimes solids from one point to another.

Supplying Pipes, Elbows, Tees, Reducers, Couplings, Flanges, Adapters, Valves, Unions etc.

Some industries require specialized fittings, such as sanitary fittings used in food and pharmaceutical industries, or high-pressure fittings used in hydraulic systems also can be provide.

# OUR PRODUCTS

## HARDWARE AND FASTENERS:

Fasteners and hardware are essential components used to join, secure, and support various materials and structures in construction, manufacturing, automotive, and many other industries. They come in a wide range of types, sizes, and materials to suit specific applications.

Fasteners like Bolts, Nuts, Studs, Washers, Screws and many more. Hardwares like Hinges, Locks and Latches, Handles and Knob, Brackets and Braces, Clamps, Hooks and Fastening Hardware.

## BUILDING CONSTRUCTION SUPPLY

## WOOD AND TIMBER:

Wood comes in various forms, including logs, planks, boards, and veneers. It can be processed and used in its natural state or transformed into different wood products. Wood has diverse applications, such as construction, furniture making, cabinetry, flooring. Timber can be sourced from both hardwood and softwood tree species, depending on the project's requirements and regional availability. Hardwood timber is known for its durability and strength, while softwood timber is often used for framing due to its cost-effectiveness and availability.

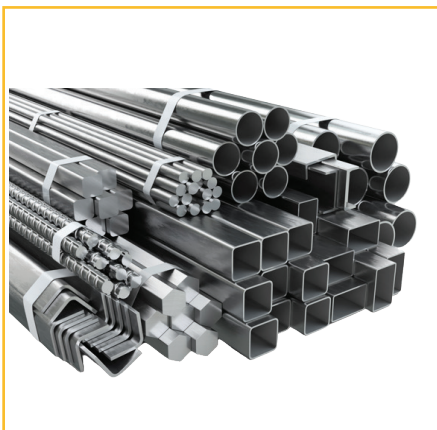

## PLUMBING MATERIALS:

Plumbing materials are essential components used in the construction and maintenance of plumbing systems in buildings. These materials are designed to convey water, gas, and sewage safely and efficiently.

Plumbing material like Pipes, Fittings, Valves, Hoses, Traps and Drains, Pipe Hangers and Supports.

Water Filtration and Treatment Systems and Pipe Repair and Maintenance Materials

## STEEL AND METAL PRODUCTS:

Steel and metal products play a significant role in construction due to their strength, durability, and versatility. They are used in various aspects of construction, from structural components to decorative elements.

Structural Steel like I-Beams and H-Beams, Angle, Channels, Columns, Steel Plates and Girders, Metal Doors and Windows, These steel and metal products are essential in construction due to their strength, longevity, and design flexibility. They are used in a wide range of projects, from residential homes to large commercial and industrial structures.

# OUR PRODUCTS

## ADHESIVES AND SEALANTS:

Adhesives are substances used to bond two or more materials together by creating a strong and permanent connection.

Adhesives like Epoxy Adhesives, Cyanoacrylate Adhesives (Super Glue), Polyurethane Adhesives, Acrylic Adhesives.

Sealants Like Silicone Sealants, Polyurethane Sealants, Acrylic Sealants,

Butyl Rubber Sealants, Elastomeric Sealants, Firestop Sealants.

Both adhesives and sealants are crucial for modern construction and manufacturing processes. Their properties vary based on the specific requirements of each application, and they contribute to the strength, durability, and overall performance of a wide range of products and structures.

## ELECTRICAL PRODUCTS:

Electrical products encompass a wide range of devices, equipment, and components used in various applications, including residential, commercial, industrial, and infrastructure projects. These products are essential for the generation, distribution, control, and utilization of electrical energy

Electrical Products like Electrical Wiring and Cables, Circuit Protection Devices,

Switches and Outlets, Distribution Panels, Lighting Fixtures, Electrical Tools and Test Equipment and Electrical Conduit and Fittings.

These are just a few examples of electrical products used in a wide range of applications.

## FIT-OUT INDUSTRIAL SUPPLY

## PARTITION SYSTEMS & FLOORING SOLUTIONS:

Partition systems and flooring solutions are key components of interior design and construction, whether for commercial, industrial, or residential spaces. They serve functional, aesthetic, and practical purposes, helping to define spaces and provide structural support.

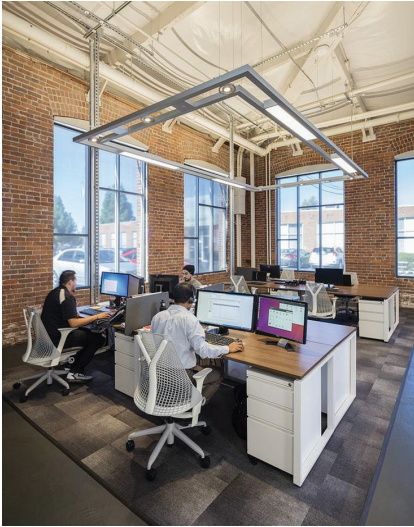

**Partition systems are include:** Demountable Partitions, Solid Partitions, Glass Partitions, Cubicles and Workstations, Folding and Sliding Partitions, Operable Walls.

**Flooring solutions are include:** Hardwood Flooring, Laminate Flooring,

Vinyl Flooring, Carpet Flooring, Ceramic and Porcelain Tile, Concrete Flooring, Epoxy Flooring, Rubber Flooring, Natural Stone Flooring, Bamboo Flooring.

The choice between different partition systems and flooring solutions depends on the specific requirements of the space, including its use, design aesthetic, and budget constraints. Proper installation and maintenance are essential to ensure the longevity and performance of these elements within a building.

# OUR PRODUCTS

## LIGHTING AND ELECTRICAL SYSTEMS:

Lighting and electrical systems are fundamental components of any building, providing illumination, power, and control for a wide range of applications. These systems are critical for the functionality, safety, and aesthetics of residential, commercial, industrial, and institutional spaces.

**Lighting systems are include:** Light Fixtures, Ceiling Lights, Wall Sconces, Floor Lamps and Table Lamps, LED Lighting, Light Source, Lighting Control Systems, Natural Lighting, Emergency Lighting.

**Electrical systems are include:** Electrical Panels (Load Centers, Wiring, Outlets and Switches, Circuit Breakers and Fuses, Grounding and Bonding, Electrical Conduit and Raceways, Power Distribution, Electrical Services, Backup Power Systems, Electrical Safety Devices and Electrical Code Compliance

Proper design, installation, and maintenance of lighting and electrical systems are essential for the safety and functionality of buildings. Electrical systems should be installed and maintained by qualified electricians, and lighting should be carefully planned to meet aesthetic and functional requirements while promoting energy efficiency.

## INTERIOR DESIGN AND LAYOUT SERVICES:

Interior design and layout services are essential for creating functional, aesthetically pleasing, and well-organized interior spaces in residential, commercial, and industrial settings. These services involve planning, designing, and coordinating various elements within an interior environment to meet the specific needs and preferences of clients.

Design and layout services: Space Planning, Concept Development, Furniture and Fixture Selection, Material and Finish Selection, Lighting Design, Color Coordination, Customization and Built-Ins, Accessibility and Universal Design, Sustainable Design, Project Management, Renderings and Presentations, Renovation and Remodeling, Commercial and Hospitality Design, Residential Design and Industrial Design.

Interior design and layout services can significantly impact the functionality and aesthetics of interior spaces. Collaboration between clients, interior designers, architects, and contractors is often essential to achieve successful design outcomes. Professionals in this field stay updated on industry trends, building codes, and innovative design solutions to create spaces that are both visually appealing and functional.
